AI / ML Developer | Data Analyst | Automation & ETL Specialist

PROFESSIONAL SUMMARY

AI/ML Data Enthusiast with 1.8 years of experience across ML experimentation, NLP workflows, ETL automation, forecasting support, and analytics. Skilled in Python, SQL, feature engineering, model evaluation, and building lightweight ML/NLP solutions. Strong understanding of automation pipelines and cloud-based development environments. Eager to contribute to scalable AI-driven solutions within data-focused teams.

TECHNICAL SKILLS

Programming & Tools: Python, SQL, PowerBI, Excel, Flask, Git

Machine Learning: Regression, Classification, Feature Engineering

Deep Learning: TensorFlow, PyTorch (Basics), CNN, RNN

NLP & GenAI: LLMs, RAG basics, FAISS, NER

Cloud & MLOps: AWS (S3, EC2), ETL scripting, API integration

PROFESSIONAL EXPERIENCE

Machine Learning Assistant | CaratLane – India | Apr 2023 – Dec 2024

- Assisted in ML model development, experimentation, and forecasting workflows.
- Contributed to feature engineering and automation pipeline improvements.
- Supported model evaluation, preprocessing, and reporting activities.

Analytical Excel Specialist | Navkar Business Services – India | Jun 2025 – Sep 2025

- Managed AR notice workflows and automated reporting operations.
- Improved vendor billing processes through structured data automation.

IT Support Associate | CaratLane – India | May 2021 – Mar 2023

- Resolved 200+ IT support queries monthly ensuring high system uptime.
- Automated system update cycles to enhance operational efficiency.

PROJECTS

- ETL Automation Script – Automated pipelines reducing manual effort by 40%.
- RAG Chatbot Mini-System – FAISS + GPT-based semantic search integration.
- Forecasting Workflow – Assisted DeepAR model testing and feature tuning.

EDUCATION

B.Tech – Computer Science Engineering (2014–2018)

12th HSC – Mumbai (2013)
